soulcalibur vi - dlc 3 character creation set a

10/10 - Would recommend if you want Steam Trading Cards.. Got a 90% off coupon for this and bought it, not expecting much. Played for 10 minutes and can honestly say that i would have payed full price for this little gem if I had known about it earlier. Casual, relaxing RTS. Amazing and relaxing time waster. This game is so much fun and super addicting. It is relaxing and cute and I just love it. Time just flies by as you play. If you love plants, definitely get this game.. Plays like a mix of Lemmings and Tetris. Place blocks to guide the mice to the end of the level while avoiding traps and collecting gems. Highly enjoyed it.

The only wish I can think of would be Steam workshop integration for the level editor.. Very easy escape room game.

Starts bad I wanted to leave this game after 5 min...

But the bizarre mature scenario and the very good music made me continue the adventure.

I don't regret. For 3 euros I enjoyed the experience.. Awsome game. I know it looks like a Minecraft clone, but let's get past this. It's a rogue-like, or rogue-lite if you are a jerk. Some minor crafting elements combine with smooth controls, loot, lots and lots of stuff to kill and a wild feeling of adventure to make a game that is much more than the sum of it's parts. Good stuff for only 10 bucks.

jep just another boring simulator game just keep going

1/10

Pros

the game works somtimes

Cons

boring

boring

boring

unoriginal

. you need an iq of 13871287845 to solve this game

but really, especially in the beginning, his clues are very abstract

but luckily, there's an ingame guide if you wish to use same as "sherlock : homes the awakened"

good game though. A fun challenging sim game. Learning about the wine making process is very interesting also.. I wanted to believe this could be good as I have played Rugby Challenge 2 and had some fun with it but it really is the same game. Some are calling this Rugby Challenge 2.5 but I think 2.1 is much more accurate. Being the essentially the same game it has the same issues; unresponsive gameplay, finicky controls and very little value for money. 1/10. Great concept, but just not ready yet. There's a lot of potential, but it just doesn't work. The graphics are primitive, the movement is jerky, and almost all the rides are the same style (spiny) carnival rides. All ya get is car sick.. From the menu to the advertisement, to the work hours, to the quality of your ingredients, you are given full control of everything in this small pizza restaurant.

It helped me realize I should not be given this much power over anything or else I'll run it in to the ground.

10/10 would bankrupt my friend again.. Holy Dawi Balls!!! Best end of times simulator ever!!!! I kinda suck at the game but bet your Orc panties, your Undead skin tags, and your Chaos toe jam that you will be steam rolled if your not extremely careful on the hardest difficulty!

10 ot of 10

Would get violated by war hordes again!. It gets boring really fast. I like it. I died alot though. If you want a Rouge dungeon crawler for like 15 minutes or so this is your game.
